

Awkward No More!

Most people want to show respect and sensitivity to people with disabilities. But they simply don't know how, and with good reason: amid dozens of disabilities and millions who have them, there is so much to know that it overwhelms most people. Disability is the world's largest minority group, a group that anyone can join at any time.

Our seminar explore culture, language and barriers in our community. We will review the American's with Disabilities Act (ADA) and discuss the value it brings to our community.

You will build confidence and experience on how to communicate comfortably and appropriately with customers, co-workers or potential employees who have disabilities.

Book our interactive seminar for your agency and let's together break down barriers and help make our community more inclusive.
